

What This Course Will Do

South Carolina Point Reduction Program

Completion of the National Safety Council's Defensive Driving 8-hour (DDC-8) course can be used for up to a four-point reduction in a driver's Motor Vehicle Record. (This applies to individuals with a valid South Carolina Driver's License).

South Carolina drivers seeking to reduce their points and avoid suspension by attending a defensive driving course must complete the course *before* the suspension begins. They will have 30 days from the date of the suspension notice until the date the suspension begins. Once the suspension begins, the point reduction will not cancel the suspension.

Points may still only be reduced once in a three-year period.
