[Sign in with another account](#)

Sign in

3 Click "Security info"

4 If you need to make changes, Click "Change"

5 Update your phone number and click "Next"

The screenshot shows the 'Security info' page of a Microsoft account. A modal dialog titled 'Phone' is open in the center. The dialog contains the following text: 'You can prove who you are by answering a call on your phone.' followed by 'What phone number would you like to use?'. Below this is a dropdown menu showing 'United States (+1)' and a text input field. Underneath is a radio button labeled 'Call me' which is selected. At the bottom of the dialog, there is a disclaimer: 'Message and data rates may apply. Choosing Next means that you agree to the [Terms of service](#) and [Privacy and cookies statement](#).' and two buttons: 'Cancel' and 'Next'.

6 Answer the phone call and hit

The screenshot shows a simplified version of the 'Phone' dialog box. It has a title 'Phone' and a close button (X) in the top right corner. The main text reads 'We're calling [redacted] now.' where [redacted] is a placeholder for a phone number. At the bottom right, there is a button labeled 'Back'.

7 After you answer the call and hit # click "Done"

Phone

Call answered. Your phone was registered successfully.
